

## What makes a safe place activity

### Match the principle to the picture

1

Showing we care – how do people look after an area.

Is the area clean and well maintained? Are broken windows and lights fixed? Rubbish bins emptied. Graffiti tagging cleaned up.

2

Having fun – how do people use an area in positive ways.

Is there play equipment? Picnic tables and benches? Sporting facilities?

3

Coming and going – how do people move around an area.

What signs, gates, fencing, landscaping, and paths are there to welcome, and help people find their way around confidently; or to stop people from entering private or dangerous areas?

4

Keeping watch – how do people watch over an area.

Is in area in full view so people can keep an eye on it easily? Are trees and bushes trimmed? Is there good lighting?
